+92 336 3315623

As a computer science student at Iqra University, currently in my 8th semester.

I have a strong foundation in programming languages such as Java, C++, and Python, along with experience in developing applications using Flutter. I am currently in the learning phase of Spring Boot and continuously expanding my knowledge in this area. With a solid understanding of software development principles and the ability to adapt to new technologies.

During my academic journey, I have successfully completed various projects that have honed my programming skills and problem-solving abilities. These experiences have provided me with a comprehensive understanding of the software development life cycle, from requirement gathering and analysis to testing and deployment.

My current cumulative GPA of 3.19 is evidence of my commitment to academic excellence and my dedication to continuous learning. Alongside my academic pursuits, I actively engage in self-learning and keep myself updated with the latest trends and advancements in the field of software development.

Apart from technical skills, I possess excellent communication and collaboration abilities, which I have developed through group projects and presentations.

## Work Experience

---

### **Work as a salesperson and developer too.**

America designers - Karachi

September 2021 to March 2022

Was a software developer and salesperson

## Education

---
